<input type="checkbox"/>	SB 1	Creighton, Brandon(R)	Relating to the establishment of an education savings account program.  <b>General Remarks:</b> SB 1 would create an education savings account (ESA) program with \$500 million appropriated by the legislature for this purpose during the regular session. The bill would annually provide \$8,000 for each eligible student to pay for private school tuition and other related educational expenses such as uniforms, textbooks, tests, tutoring, transportation, and educational therapies. Unlike the ESA bill advanced by the Senate during the regular session, SB 1 does not include homeschool students. The program would be overseen by the comptroller's office which would authorize five educational assistance organizations (EAO) to assist in administering the program. The comptroller's office would be entitled to 3% of the overall funding in the program and the EAOs would be entitled to 5% -- that's a total of \$40 million. Students who previously attended public or private school could apply for an ESA, but overall participation would be capped to no more than 40 percent of available positions for students who qualify for free or reduced lunch, no more than 30 percent of available positions for students who are in a household with a total income that is between 185 and 500 percent of the federal poverty guidelines, no more than 20 percent of available positions for students who have a disability, and no more than 10 percent of students who attended public, private, or home school in the previous school year. During the hearing on this bill, Sen. Brandon Creighton (R-Conroe) said his intention was to not so much cap participation of various student groups but to prioritize certain students, such as those with special needs or those who are economically disadvantaged. Debate during the hearing echoed much of what previous hearings on voucher bills traditionally feature, with proponents contending that families need choices for their students outside of public education and opponents denouncing the diversion of public dollars away from public schools and the lack of accountability in private schools. Sen. Royce West (D-Dallas) spent much of the hearing calling for more transparency of the program -- specifically with regard to student demographics -- and accountability of public tax dollars going to private schools. Thrall ISD Trustee Bryan Holube, testifying on behalf of TASB, noted that vouchers give schools the choice of which students to accept, not parents, and that public schools provide more parental rights and student protections than private schools. The committee passed the bill along a party line vote of 10-3.  <b>Last Action:</b> 10-13-23 H Referred to House Committee on House Select on Educational Opportunity	
<input type="checkbox"/>	SB 2	Creighton, Brandon(R)	Relating to a local optional teacher designation system implemented by a school district, a security officer employed by a school district, the basic allotment and guaranteed yield.  <b>General Remarks:</b> SB 2 would provide funding for various public education programs and incentives. The bill would increase the basic allotment by \$75 from \$6,160 to \$6,235 per student and decouples future increases from mandatory compensation increases. SB 2 would also provide one-time teacher retention bonuses of \$10,000 per teacher in districts with fewer than 5,000 students and \$3,000 per teacher in larger districts. The bonuses would be applied this year and would be converted into salary going forward. The bill would also increase the School Safety Allotment from \$10 to \$20 per student and would increase the per-campus allotment from \$15,000 to \$30,000. The committee passed the bill unanimously on a 15-0 vote.  <b>Last Action:</b> 10-13-23 H Received in the House
